NEW TRAIL CONSTRUCTION UNDERWAY

Forest Asking for Public Cooperation

Warren, Pa. – The Allegheny National Forest (NF) announced last week the construction of a new low-impact, non-motorized interpretive hiking trail between the Kinzua Beach and Rimrock Overlook as part of the recently approved Rimrock Trail Project.

The new trail is still currently under construction and the Forest is therefore asking for the cooperation of the public by avoiding the area so that the trail construction can proceed safely and on schedule. An official announcement will be made as soon as construction is complete and the trail can be opened for public use.

The decision, map, and other information pertaining to this project can be found on the Allegheny NF website at: http://www.fs.fed.us/r9/forests/allegheny/projects/recreation_projects/rimrock_trail. The documents are also available upon request from the U.S. Forest Service, 29 Forest Service Drive, Bradford, PA 16701. Questions related to this project may be directed to Julie Moyer at (814) 363-6089 or via email at jmoyer@fs.fed.us.
